Software Engineering major with experience in electronics and cybersecurity, skilled at programming and problem solving, interested in cryptography and AI, but open to any work!

EDUCATION

Michigan Technological University, Houghton, Michigan Expected April 2027
B.S. Software Engineering, Minor in Cybersecurity, 3.39 GPA

Waukesha County Technical College, Pewaukee, Wisconsin 2023 - 2024
Dual Enrollment Academy - IT Systems Certificate, 3.89 GPA

TECHNICAL SKILLS

Windows ~ Linux ~ Python ~ PHP ~ C ~ Java ~ SQL ~ HTML ~ CSS ~ JavaScript
Ciphers ~ Hashcat ~ Wireshark ~ Visual Studio Code ~ Excel

WORK EXPERIENCE

Undergraduate Researcher Summer 2026

- Analyzing and maintaining backend AI databases, using Excel and a web interface, allowing for the AI to continuously improve at creating marketing solutions, while promoting consistency and concise communication

HubKonnct Intern March 2023 – Present

- Analyzing and maintaining backend AI databases, using Excel and a web interface, allowing for the AI to continuously improve at creating marketing solutions, while promoting consistency and concise communication
- Processing support tickets, using a web interface and email, to aid our client franchisees in utilizing our system

Sandwich Sisters Summer 2025

- Operated and maintained a sandwich food truck, using communication and time management skills to coordinate roles inside of the truck to serve customers efficiently.

Endter's Sports Grill June 2020 – January 2025

- Operated multiple kitchen utilities in a fast paced environment, using problem solving and teamwork to serve food efficiently.

OTHER EXPERIENCE

National Cyber League Fall 2023 – Present

- Continuously challenged as both an individual, and in a team of seven, to solve high level cybersecurity problems in eight different categories of cybersecurity every semester.

Cyberpatriot Fall 2023

- Persevered to both fix a Linux image while solving Cisco networking problems, using defensive cybersecurity techniques and critical thinking to compete against other teams of high schoolers.
- Our team of three made it to Semi-finals

Eagle Project September 2023

- Developed from the ground up a unique project for the benefit of a local VFW post, using planning and leadership skills to budget and execute the project, managing a group of scout volunteers to carry out the project to rebuild an emergency staircase.

LEADERSHIP & INVOLVEMENT

RedTeam and Pokemon League at Michigan Tech 2024 – Present

- Actively facilitate two different student organizations at Michigan Tech as their president, coordinating every other leadership position with the goals of revitalization and providing a stable and fun extracurricular space for university students.

Eagle Scout, Boy Scouts of America 2017 – 2023

- Achieved the highest rank of Eagle, through survival training and community service, having volunteered through multiple different organizations, such as the Salvation Army.
- Put my leadership and organizational skills to the test through holding multiple different leadership positions in my time, taking on tasks from managing all of the supplies for the Troop, to leading and coordinating every activity and individual scout in the troop, to settling down to focus on helping new Scouts adjust to the Troop, getting them involved and feeling welcomed.
